After observing 7 inches of rain in May, and 7.1 inches in June, things finally slowed down, with the landfill only seeing 6.6 inches of rain in July.

The Solid Waste Department has been working to stay ahead of the very wet season and work round the clock to catch trash pickups after the rains. We also worked on mowing and shredding our properties and rebuilding roadways and accesses to the landfill.

Landfill staff also conducted the bi-annual groundwater sampling event with the help of Water production.
