Dot-to-Dot • Color it in!

Connect the dots and color in one of nature's most violent storms.

Learn how to protect yourself before, during and after it hits.

Before:

Pick a safe place – a basement, center hallway, bathroom or closet on the lowest floor.

Avoid exterior walls and windows.

Stay tuned to the news for updates.

During:

Go to the safe place you picked. If you can, get under a piece of sturdy furniture and use your arms to protect your head and neck.

If you're in a mobile home, get out and find other shelter.

If you're outside, find a sturdy building or some sort of shelter. If one is not close by, find a ditch or low-lying area and use your arms to protect your head and neck.

After:

Check for injuries. Watch for broken glass, anything with jagged edges and fallen power lines.

Do not enter damaged areas or buildings.

Do not use matches, lighters or open flames. There may be damaged gas lines or leaks.
